AL-IMC801FP

10/100/1000M TX to 100/1000M SFP Industrial Media Converter

The Antek Labs AL-IMC801FP is an industrial fiber media converter that bridges copper Ethernet to an SFP fiber uplink for hardened, long-reach connectivity. Fanless, aluminium-housed and DIN-rail mountable, it runs across a wide DC input and wide-temperature range for outdoor cabinets and industrial enclosures.

KEY FEATURES

- Transparent copper-to-fiber conversion with store-and-forward switching and auto-negotiation.
- SFP fiber uplink accepts multi-mode or single-mode optics for reach from 550 m to 120 km.
- Fanless aluminium housing, wide DC input, wide-temperature operation.
- DIN-rail or desktop mounting with industrial EMC and surge protection.
